

# Discrete Mathematics Questionnaire

Ethan Bolker

August 26, 2014

*Fill out this L<sup>A</sup>T<sub>E</sub>X form (change the author!), delete these italicized instructions, compile, turn in hard copy of your PDF with the L<sup>A</sup>T<sub>E</sub>X code appended as it is here.*

- What is your major (Math, CS BS, CS BA, CS Grad, other)?
- When do you expect to graduate? What do you think you will be doing after you graduate?
- When did you take calculus? What was your grade?
- When did you take linear algebra? What was your grade?
- What are the most advanced courses in math or theoretical cs that you've taken?
- What are your fondest wishes and worst fears about this course?
- What other courses are you taking this fall?
- What other time commitments do you have (work, child care, ...)?
- Anything else I should know about you?

*Here is the  $\LaTeX$  source for this document. You can cut it from the pdf and use it to start your answers. I used the `\jobname` macro for the source file name, so you can call your file by any name you like.*
