

CS410-01 ClassProj3 – Artifacts:
Where to Put Files for Team Use and Grading

I. Overall perspective on points for work in cs410-01:

REPORTS – 100 pts

These go in reports dir in your course dir

CLASSPROJ – 3 of them – 300 pts

CP3-Artifacts – covered here

CP1-Personal Website – will be mentioned

CP2-Corporate Website – will be mentioned

HWK – 3 of them – 300pts

HW1 – will be mentioned

LONGPROJ – sprint1, sprint2, slides/present – 300pts
not started yet

II. Overall perspective on sprints for work in cs410-01:

GROOM product backlog – client choice goes first

PLAN sprint - students choose features to work on

PERFORM – write code, test, revise, store artifacts

INSPECT and ADAPT – daily scrum, adjust sprint backlog

INSPECT and ADAPT – sprint review, potentially shippable product

INSPECT and ADAPT – sprint retrospective, methods

III. Files that we use and the ones to be graded for artifact grading:

/home/<csun>/public_html/index.html, symlink

your personal website was checked after you created it

you have the list of reqmts for personal websites that improve them

/home/<csun>/cs410/info_nnnn.txt, reports, hws:

reports are being graded following reports.txt and r7 notes in canvas

hws are graded by grading criteria for each

info_nnnn.txt was checked at the start, and has one update of two lines:

CP3: update Feb 19 includes 5 pts for the 2 line update in info_nnnn.txt

You have permission to make this update by March 2, 11:59pm

/courses/cs410/s25/hdeblois/public_html/<corp>/<csun><csun>..

corporation websites were built, using <csun> data, and presented

each corp has a list of 10 requirements for improvements – see photos

/courses/cs410/s25/hdeblois/GROUP/<csun>

you put the artifacts for your personal website here

CP3: handwr req has 5 pts for including file personalWebsite.txt here

(the file is posted on the instructor website so copy it here or to your course dir and link)

You have permission to make this update by March 2, 11:59pm

/courses/cs410/s25/hdeblois/GROUP/<corp>/<csun>

you put the artifacts for the corporate website that you created here

CP3: corp website personal part (your files) no point breakout yet

/courses/cs410/s25/hdeblois/GROUP/<corp>

you put the artifacts for the corporate website that affect the entire website here

CP3: corp website: 5pts List of requireents (from board in class, photos taken)

CP3: corp website: 5pts: Product Backlog list, initial and after sprint
CP3: corp website: 5pts: Sprint2 Goal
CP3: corp website: 10pts spreadsheet of feature-student items with pieces for each dailyscrum
CP#: corp website: 5pts: shippable product increment test plan and tests

/courses/cs410/s25/hdeblois/GROUP/<corp>/<feature1>,<feature2>,...

you put the artifacts for the corp website that are teamwork here

CP3: corp website feature work (files for 2 or more students) no pt breakout yet

PS if a particular of yours is located elsewhere and you like it there, you can symlink to it, but don't move it
